Presentation

The Rosicrucian Fellowship aims to spread the Western Wisdom Teachings, and for this purpose assumes the task of Herald of the next Age of Aquarius. What then is the challenge that the Fellowship expects of us? The challenge is typical of the pioneer: the challenge of the future. And this challenge we could not do better than take as an example what its founder himself, Max Heindel, did. Max Heindel in the early years of the last century spread the Rosicrucian Teachings, doing whenever the opportunity arose reference and comparison with all the scientific discoveries of his time. We believe that the best way to pay homage to him and continue faithfully in his work is to use the same system. LETS' BEGIN TO DO IT TOGETHER!
